Queries on Heart

Why do we imagine? What is this energy? Is it a common pool, a loving transaction?

How long has art been around?

What artifacts have you placed here? Are they ours?

Why are dolphins our "sea equals?" What function does this thought serve?
Do your thoughts serve your heart?

Aliens are popular now, why? Are we making faces at God? With God?
Or are we calling up great change, in search of a cosmic template?

Why can't this template be you?

We do not have to resign and wait for our children's' children.
The love that visualizes a better world for everyone is here, now.

Jesus, Buddha, Luke,... the Force has arrived, and it is us.
The art of imaging peace bonds our fragile spirit to a system of love.

Love, Super Love, ... imagine this reach.
